

ROMAD ASSAULT COMMS PACK - EBERLESTOCK ROMAD PACK BACK

EBERLESTOCK ROMAD ASSAULT COMMS PACK ROMAD is a lightweight, compact, and highly versatile comms assault pack that was tested and refined on deployment. Smaller than legacy radio packs like the FAC Track, ROMAD's streamlined design reduces your profile while providing enough room for sustainment and extra gear. These same design choices make ROMAD equally capable on the trail, at the range, or as a bugout bag. ROMAD is intentionally sized to fit communications systems like the PRC117 and has internal loop MOLLE webbing for securing additional accessories like radio pouches, Velcro holsters, or mag pouches. Locking zippers along the comms port give in-field security and work as a first line of defense against the elements. Accessing the internals is quick and straightforward, thanks to a full-length U-shaped opening that runs from top to bottom. This design feature lets you rapidly retrieve gear without having to blindly feel your way around the pack. A separate, dedicated hydration sleeve keeps liquids away from sensitive equipment, clothing, or other gear in the pack's main compartment. On the pack's exterior, you'll find two zippered organizational pockets. The top pocket is perfect for grab-and-go essentials, and the bottom has padding for NODs or hearing protection. ROMAD's internal HDPE frame adds structure and support for heavier loads, and ergonomic air-mesh padding provides all-day comfort and ventilation with or without a plate carrier. MOLLE webbing along the entire shoulder harness keeps cables secure and protected, reducing snags and giving you a place to route hydration system hoses. When working in confined spaces like vehicles, helicopters, and watercraft, ROMAD's slim profile promotes maneuverability. This makes ROMAD a fantastic choice for carry-on travel or transport from field work to the gym. Extensive MOLLE webbing across all external surfaces allows ROMAD to expand with the addition of MOLLE-compatible accessories, allowing you to prioritize sustainment and scale up or down from there depending on the mission.

ROMAD ASSAULT COMMS PACK Safety Instruction Guide

Introduction

Thank you for choosing the Eberlestock ROMAD Assault Comms Pack. This guide provides essential safety instructions to ensure the safe use of your product. Please read this guide carefully before using the pack to familiarize yourself with its features and safety precautions.

General Safety Guidelines

- Always inspect the pack before use for any signs of damage or wear.
- Ensure that all zippers and straps are securely fastened before carrying the pack.
- Do not exceed the recommended weight capacity of the pack to avoid strain or damage.
- Keep the pack away from sharp objects or extreme heat sources.
- Use the pack only for its intended purpose; do not modify or alter it in any way.
- Store the pack in a dry, cool place when not in use to prevent damage from moisture or mold.
- Always follow local regulations and guidelines when using the pack in public areas.

Specific Safety Precautions for Use

- When using the hydration bladder pocket, ensure that the bladder is securely closed to prevent leaks.
- Be cautious when routing cables through the MOLLE webbing to avoid tangling or snagging.
- When accessing the internal compartments, be mindful of any sharp objects or equipment that may be stored inside.
- If using the pack in lowlight conditions, ensure that any reflective or highvisibility features are utilized for safety.
- Avoid overloading external pockets to maintain the pack's balance and stability.

Instructions for Installation and Usage
