

MICRO FIGHT CHASSIS MK6 - SPIRITUS SYSTEMS MK6 MICRO FIGHT CHASSIS WOLF GREY

SPIRITUS SYSTEMS MICRO FIGHT CHASSIS MK6 The Micro Fight Chassis Mk 6 is a small and lightweight chassis that can be used as either a standalone magazine placard on an LV-120 Plate Carrier, or the central hub for a chest rig when other Spiritus Systems components are used. The Mk 6 is a single cell placard-style chassis that is built with MOLLE on the front and sides to accommodate additional magazine and utility pouches. Tourniquets and other equipment can also be stowed outboard with their Universal Retention Kit, and a row of anchor points along the top opening will interface with their magazine Bungee Retention Kit to secure any caliber of weapon. The main cell of the Mk 6 is lined with loop on both sides and will accommodate all of Spiritus Systems' Magazine Inserts. Versatile and Scalable The Micro Fight Chassis Mk 6 will interface with each of Spiritus Systems' chest rig and LV-120 Plate Carrier components. The footprint of the Mk 6 is identical to the Mk 5 and will seamlessly connect with the LV-120 Plate Carrier, as well as the Thing 3. The buckle straps on the rear of the Mk 6 can be used to adjust the height, using either the side release buckles (included) or the Flat G-Hooks (sold separately). Stand Alone System The Micro Fight Chassis Mk 6 was designed to perform as a stand-alone system. It can be configured for wear in low visibility environments that require minimal printing through clothing with maximum equipment storage. It can also be configured for high visibility operations where a full spectrum of equipment is required. Placard Configuration The Micro Fight Chassis Mk 6 works seamlessly as a placard for the LV-120 Plate Carrier using either the side release buckles or G-Hooks (G-Hooks sold separately). First Spear Tubes (sold separately) can be attached to the side of the Mk 6 in place of the side release buckles, for a more secure fit to the carrier by attaching the cummerbund to the placard. The Mk 6 is UCAS compatible. NOTE: The Chassis is part of the Micro Fight Chest Rig System. This item does not include Shoulder Straps (Fat Straps), a Back Strap, Magazine Inserts, or any other Accessories. Some images shown with optional accessories, sold separately.
