

GRIP INSERTS - RANSOM GRIP INSERTS FOR RUGER EC9

RANSOM INTERNATIONAL GRIP INSERTS Do not use hard grip inserts or 3D-printed plastic grip inserts for your Master Series Ransom Rest. Hard inserts damage the gun by generating destructive recoil energy that travels through the frame and barrel. Not only that, most hard or 3D-printed inserts are poorly engineered and fail to replicate human-like recoil, rendering any test data invalid. Hard grip inserts will not provide repeatable test results to your hand and the end user of the firearm. The grip inserts are specifically designed to match the durometer of the human hand. The inserts absorb the first few milliseconds of shot before the machine can even mechanically recoil. Look at the photo attached here: You can see the bullet has left the barrel. The machine has not come out of a lowered battery position, and the slide has not come out of lockup. The first few milliseconds of vibration and recoil are absorbed by the insert before the machine can even respond. Why will a hard insert damage your gun? The simplest, most direct answer is that physics teaches us that every action has an equal and opposite reaction. Therefore, Chuck Ransom always said vibration and recoil cannot be stopped; they can only be repeatedly controlled. If these forces do not have somewhere to travel, they will find a way to go. Just as lightning and water will find a way to travel and move, so will vibration and recoil. The inserts are specifically designed to act like the human hand, absorbing these forces and not transferring them into the gun. The Ransom rest insert absorbs vibration and harmonics, then properly transfers the energy into the rest to recoil as a human does coaxially. This whole unit functions similarly to how your hand absorbs the recoil and vibration. The grip inserts and machine, as a pair, are specifically designed to absorb this. This damage may not be seen right away, but it accrues with each shot. A hard insert will decrease the life of the barrel and gun, and it may possibly cause injury or death if something occurs. A hard insert will not be duplicatable to the end user. Whether destructive testing or accuracy testing, you must mimic the human, or your test is flawed. If a hard or 3d printed insert worked. Then every gun manufacturer would already be using them, and there would be no need for a Ransom Rest company. Take note and caution, many have tried, and many have found out the hard way. Caution: Don't use hard or 3D-printed inserts.

Safety Instruction Guide for GRIP INSERTS

RANSOM GRIP INSERTS FOR RUGER EC9

Introduction

Thank you for choosing the Ransom International Grip Inserts for your Ruger EC9. These inserts are specifically designed to enhance the shooting experience while ensuring the safety of both the user and the firearm. This guide provides essential safety instructions and recommendations to ensure proper use and installation of the grip inserts.

General Safety Guidelines

- Always follow the manufacturer's instructions when using the grip inserts.
- Ensure that the firearm is unloaded before installing or adjusting the grip inserts.
- Inspect the grip inserts regularly for any signs of wear or damage.
- Do not use hard grip inserts or 3Dprinted plastic grip inserts, as they can cause damage to your firearm and result in inaccurate test data.
- Be aware that improper use of grip inserts can lead to injury or damage to the firearm.
- Report any unsafe products or incidents to the appropriate authorities.

Specific Safety Precautions for Use

- **Avoid Hard Inserts:** Do not use hard grip inserts or 3Dprinted plastic grip inserts. These can generate destructive recoil energy that damages the firearm.
- **Recoil Management:** Understand that vibration and recoil cannot be stopped; they can only be controlled. The grip inserts are designed to absorb these forces, mimicking the human hand.
- **Regular Checks:** Periodically check the grip inserts for integrity and functionality. Replace them if any damage is observed.
- **Proper Installation:** Follow the installation instructions closely to ensure that the grip inserts function as intended.
- **Use with Caution:** Be mindful of the potential for injury if the grip inserts are not used correctly.

Instructions for Installation and Usage

1. Preparation:

- Ensure that the firearm is completely unloaded.
- Gather all necessary tools required for the installation.

2. Installation:

- Remove any existing grip inserts from the firearm.
- Align the Ransom grip inserts with the grip area of the firearm.
- Securely attach the grip inserts according to the manufacturer's instructions.
- Ensure that the grip inserts are firmly in place and do not move when the firearm is handled.

3. Usage:

- When using the firearm, ensure that the grip inserts are functioning properly.
- Monitor the performance of the grip inserts during use to ensure they are absorbing recoil as designed.
- After each shooting session, inspect the grip inserts for any signs of wear or damage.

4. PostUsage:

- Clean the grip inserts if necessary, following the manufacturer's cleaning instructions.
- Store the firearm and grip inserts in a secure location when not in use.

Disposal Instructions

- Dispose of any damaged or worn grip inserts in accordance with local regulations.
- Do not throw grip inserts into regular trash if they contain hazardous materials.
- Check with local waste management authorities for proper disposal methods for any components.

Istruzioni di Sicurezza per Grip Inserts RANSOM per Ruger EC9

Introduzione

Grazie per aver scelto i Grip Inserts RANSOM per il tuo Ruger EC9. Questo prodotto è progettato per migliorare la tua esperienza di tiro, garantendo al contempo la sicurezza e la protezione della tua arma. È importante seguire attentamente queste istruzioni di sicurezza per garantire un utilizzo sicuro e efficace.

Linee Guida Generali di Sicurezza

- Assicurati di utilizzare solo i Grip Inserts RANSOM progettati specificamente per il tuo Ruger EC9.
- Non utilizzare grip inserts rigidi o in plastica stampata in 3D, poiché possono danneggiare l'arma.
- Controlla regolarmente i Grip Inserts per eventuali segni di usura o danni.
- Segui sempre le istruzioni del produttore per l'uso e la manutenzione.
- Non utilizzare il prodotto in condizioni che potrebbero compromettere la tua sicurezza o quella degli altri.

Precauzioni di Sicurezza Specifiche per l'Uso

- Non utilizzare gli inserti rigidi o stampati in 3D, poiché possono generare energia di rinculo distruttiva.
- Assicurati che gli inserti siano installati correttamente prima di ogni utilizzo.
- Non tentare di modificare o alterare gli inserti in alcun modo.
- Non lasciare mai l'arma incustodita con gli inserti installati.
- Se noti qualsiasi problema durante l'uso, interrompi immediatamente l'uso e verifica il prodotto.

Istruzioni per l'Installazione e l'Uso

1. Installazione degli Inserti:

- Rimuovi l'arma dalla custodia e assicurati che sia scarica.
- Segui le istruzioni specifiche fornite con gli inserti per il corretto posizionamento.
- Verifica che gli inserti siano saldamente fissati e non si muovano.

2. Uso degli Inserti:

- Durante il tiro, mantieni una presa salda sull'arma.
- Gli inserti RANSOM assorbono le forze di rinculo, quindi non dovresti sentire vibrazioni eccessive.
- Dopo ogni sessione di tiro, controlla gli inserti per segni di usura.

Istruzioni per lo Smaltimento

- Gli inserti RANSOM devono essere smaltiti in conformità con le normative locali riguardanti i rifiuti.
- Non gettare gli inserti nel normale spazzatura. Contatta le autorità locali per informazioni sullo smaltimento corretto.
