

GRIP INSERTS - RANSOM GRIP INSERTS FOR WALTHER P88 COMPACT

RANSOM INTERNATIONAL GRIP INSERTS Do not use hard grip inserts or 3D-printed plastic grip inserts for your Master Series Ransom Rest. Hard inserts damage the gun by generating destructive recoil energy that travels through the frame and barrel. Not only that, most hard or 3D-printed inserts are poorly engineered and fail to replicate human-like recoil, rendering any test data invalid. Hard grip inserts will not provide repeatable test results to your hand and the end user of the firearm. The grip inserts are specifically designed to match the durometer of the human hand. The inserts absorb the first few milliseconds of shot before the machine can even mechanically recoil. Look at the photo attached here: You can see the bullet has left the barrel. The machine has not come out of a lowered battery position, and the slide has not come out of lockup. The first few milliseconds of vibration and recoil are absorbed by the insert before the machine can even respond. Why will a hard insert damage your gun? The simplest, most direct answer is that physics teaches us that every action has an equal and opposite reaction. Therefore, Chuck Ransom always said vibration and recoil cannot be stopped; they can only be repeatedly controlled. If these forces do not have somewhere to travel, they will find a way to go. Just as lightning and water will find a way to travel and move, so will vibration and recoil. The inserts are specifically designed to act like the human hand, absorbing these forces and not transferring them into the gun. The Ransom rest insert absorbs vibration and harmonics, then properly transfers the energy into the rest to recoil as a human does coaxially. This whole unit functions similarly to how your hand absorbs the recoil and vibration. The grip inserts and machine, as a pair, are specifically designed to absorb this. This damage may not be seen right away, but it accrues with each shot. A hard insert will decrease the life of the barrel and gun, and it may possibly cause injury or death if something occurs. A hard insert will not be duplicatable to the end user. Whether destructive testing or accuracy testing, you must mimic the human, or your test is flawed. If a hard or 3d printed insert worked. Then every gun manufacturer would already be using them, and there would be no need for a Ransom Rest company. Take note and caution, many have tried, and many have found out the hard way. Caution: Don't use hard or 3D-printed inserts.

GRIP INSERTS RANSOM GRIP INSERTS FOR WALTHER P88 COMPACT Safety Instruction Guide

Introduction

Thank you for choosing the Ransom International Grip Inserts for your Walther P88 Compact. These inserts are designed to enhance your shooting experience by mimicking the natural feel of the human hand. However, it is crucial to understand the proper use and safety precautions to ensure both your safety and the longevity of your firearm.

General Safety Guidelines

- Always follow the manufacturer's instructions when using the grip inserts.
- Ensure that the grip inserts are compatible with your specific firearm model.
- Do not use hard grip inserts or 3Dprinted plastic grip inserts, as they can damage your firearm.
- Be aware of the potential hazards associated with improper use of grip inserts, including injury and damage to your firearm.
- Keep the grip inserts out of reach of children and vulnerable individuals.

Specific Safety Precautions for Use

- **Do Not Use Hard Inserts:** Hard grip inserts generate destructive recoil energy that can damage the gun. They do not replicate humanlike recoil, leading to invalid test data.
- **Avoid 3DPrinted Inserts:** These inserts are often poorly engineered and may not provide accurate test results.
- **Monitor for Damage:** Although damage may not be immediately visible, it can accumulate over time with each shot, potentially leading to decreased firearm lifespan and safety risks.
- **Understand Recoil Dynamics:** The inserts are designed to absorb recoil and vibration, similar to how the human hand functions. Using inappropriate inserts can disrupt this process.
- **Follow Testing Protocols:** When conducting accuracy or destructive testing, ensure that the inserts mimic humanlike response to recoil.

Instructions for Installation and Usage

1. Installation:

- Ensure your firearm is unloaded and pointed in a safe direction.
- Remove any existing grip inserts from your firearm.
- Carefully install the Ransom grip inserts according to the specific instructions provided with the product.
- Ensure the inserts fit snugly and securely.

2. Usage:

- Use the grip inserts only with the designated firearm model.
- Regularly check the condition of the grip inserts for wear and tear.
- If you notice any signs of damage or degradation, discontinue use immediately and replace the inserts.
- Always maintain a proper shooting stance and grip while using the firearm.

Disposal Instructions

- Dispose of any damaged or worn grip inserts responsibly.
- Check local regulations for proper disposal methods of plastic materials.
- Do not throw grip inserts in regular household waste if possible; consider recycling options.

Contact Information for Further Support

For any safety inquiries or further assistance, please refer to the manufacturer's contact information provided with the product packaging.

Conclusion

By following these safety instructions, you can help ensure a safe and effective shooting experience with your Ransom Grip Inserts. Your safety and the integrity of your firearm are of utmost importance, so always prioritize proper use and maintenance. Thank you for your attention to these guidelines.

ISTRUZIONI PER LA SICUREZZA DEGLI INSERTI GRIP RANSOM PER WALTHER P88 COMPACT

Introduzione

Grazie per aver scelto gli Inserti Grip Ransom per il tuo Walther P88 Compact. Questo prodotto è progettato per migliorare le prestazioni della tua arma e garantire la tua sicurezza durante l'uso. È importante seguire attentamente le istruzioni di sicurezza e utilizzo per evitare incidenti e garantire la massima efficienza.

Linee Guida Generali per la Sicurezza

- Leggi attentamente tutte le istruzioni prima dell'uso.
- Assicurati di utilizzare solo gli inserti progettati specificamente per il tuo modello di arma.
- Non utilizzare inserti rigidi o stampati in 3D, poiché possono danneggiare l'arma e compromettere la sicurezza.
- Controlla regolarmente l'integrità degli inserti e sostituiscili se mostrano segni di usura o danni.
- Tieni gli inserti e l'arma fuori dalla portata di bambini e persone non autorizzate.

Precauzioni di Sicurezza Specifiche per l'Utilizzo

- Gli inserti Grip Ransom sono progettati per assorbire il rinculo e le vibrazioni. Non utilizzare inserti diversi, poiché possono alterare questa funzione.
- Assicurati che l'arma sia scarica prima di installare o rimuovere gli inserti.
- Durante l'uso, mantieni una posizione sicura e controllata dell'arma.
- Non forzare mai l'arma o gli inserti oltre le loro capacità progettuali.
- Se noti qualsiasi comportamento anomalo durante l'uso, interrompi immediatamente e verifica l'arma e gli inserti.

Istruzioni per l'Installazione e l'Utilizzo

1. Installazione degli Inserti:

- Assicurati che l'arma sia completamente scarica.
- Rimuovi qualsiasi inserto precedente, se presente.
- Inserisci gli Inserti Grip Ransom seguendo le istruzioni specifiche per il tuo modello di arma.
- Verifica che gli inserti siano saldamente in posizione prima di procedere.

2. Uso degli Inserti:

- Utilizza l'arma come indicato nel manuale del produttore.
- Fai attenzione a come l'arma reagisce durante il tiro; gli inserti dovrebbero assorbire le vibrazioni e il rinculo in modo efficace.
- Evita di utilizzare l'arma in condizioni estreme che potrebbero comprometterne il funzionamento.

Istruzioni per lo Smaltimento

- Gli inserti Grip Ransom non devono essere smaltiti con i rifiuti domestici. Segui le normative locali per il corretto smaltimento dei materiali.
- Se gli inserti sono danneggiati o usurati, contatta un centro di raccolta autorizzato per il loro smaltimento.
